

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jill Mello on 10/27/11.

The amendments are as follows:

100. (Currently Amended) A method of treating melanoma in a subject, comprising topically applying for at least 30 days a 1 to 15% w/w composition of Coenzyme Q10 to the site of the melanoma in an amount effective to reduce the growth of the melanoma.

101-118. (Previously Presented)

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims overcome the art of record due to the unexpected results showing that topically applying 1% and 1.5% coenzyme Q10 was sufficient to reduce the growth of human melanoma in mice (Fig. 14). The art of record did not indicate such an effect is neither expected nor predictable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

In response to this office action the applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06).
